Ride into the town

Holding on

I'm pedaling

Rolling by the brightly colored signs

Great big polished buildings

And all the people waving

My bike light is flashing

It's the city

CHORUS

I meet my friends

At the corner of the street

At the bottom of

The building where they live

I'll show them my bike

And we'll take it in turns

It looks great in the city

With its big silver stripe

CHORUS:
