

I DONT WANT TO GO TO BED

G I don't want to go to bed

G I'm not tired and my head is filled

G With so many things

G That I still want to sing

G I'll go to bed later

G When the moon is much higher

G And all the traffic has stopped

G And the city lights are off

G I really will, promise for sure

Am Straight off to bed without

Am even a yawn

D Just let me sing one song more

G And Then Ill do some washing and chores

G If you let me stay up just a little bit more

G Oh come on, just one little minute

D You wont even notice it.

D G One little minute more
